The British Constructional Steelwork Association Ltd and Trimble Solutions (UK) Ltd have pleasure in inviting entries for the 2018 Structural Steel Design Awards Scheme.

The objective is to celebrate the excellence of the United Kingdom and the Republic of Ireland in the field of steel construction, particularly demonstrating its potential in terms of efficiency, cost-effectiveness, aesthetics and innovation.

**OPERATION OF THE AWARDS**

The Awards are open to steel-based structures situated in the United Kingdom or overseas that have been built by UK or Irish steelwork contractors. They must have been completed and be ready for occupation or use during the calendar years 2016-2017; previous entries are not eligible.

**THE PANEL OF JUDGES**

A panel of independent judges who are leading representatives of Architecture, Structural Engineering and Civil Engineering assess the entries.

The judging panel selects award winners after assessing all entries against the following key criteria:

**Planning and Architecture**
- Satisfaction of client’s brief, particularly cost-effectiveness
- Environmental impact
- Architectural excellence
- Durability
- Adaptability for changing requirements through its life
- Efficiency of the use and provision of services
- Conservation of energy

**Structural Engineering**
- Benefits achieved by using steel construction
- Efficiency of design, fabrication and erection
- Skill and workmanship
- Integration of structure and services to meet architectural requirements
- Efficiency and effectiveness of fire and corrosion protection
- Innovation of design, build and manufacturing technique

**SUBMISSION OF ENTRIES**

Entries, exhibiting a predominant use of steel and satisfying the conditions above, may be submitted by any member of the design team using the appropriate form. The declaration of compliance with the award requirements must be completed by the entrant.

Entrants should ensure that all parties of the design team have been informed of the entry.

**GENERAL**

The structures entered must be made available for inspection by the judges if they so request. All entrants will be bound by the decision of the judges, whose discretion to make or withhold any award or awards is absolute. No discussion or correspondence regarding their decision will be entered into by the judges or by the sponsors. The decision of the sponsors in all matters relating to the Scheme is final.

A short list of projects will be announced and the project teams notified directly. The results of the Scheme will be announced in the autumn – no advance notification will be given to the project teams as to which structures will receive Awards.

Any party involved in a project that is no longer in business for whatever reason will not receive any recognition in the Structural Steel Design Awards.

**AWARDS**

Each firm of architects and structural engineers responsible for the design receive an award as do the steelwork contractor, main contractor and client.

**PUBLICITY**

The sponsors assume the right to publish the drawings, photographs, design information and descriptive matter submitted with the entry to publicise the award-winning structures in relation to the Structural Steel Design Awards Scheme.

**FURTHER DETAILS**

All correspondence regarding the submission of entries should be addressed to:
Gillian Mitchell MBE,
BCSA,
Unit 4 Hayfield Business Park,
Field Lane, Auckley,
Doncaster DN9 3FL
Tel: 020 7747 8121
Email: gillian.mitchell@steelconstruction.org

**CLOSING DATE FOR ENTRIES - Friday 23rd February 2018**

Sponsored by The British Constructional Steelwork Association Ltd and Trimble Solutions (UK) Ltd.
2018 ENTRY FORM

PLEASE COMPLETE ALL SECTIONS BELOW IN FULL (including email addresses):

Name of building/structure: .................................................................
Location: ..........................................................................................
Programme of construction: ..............................................................
Completion date: ................................................................................
Total tonnage: ...................................................................................
Approximate total cost (£): ............................................................... 
Cost of steelwork (£): ........................................................................

DECLARATION OF ELIGIBILITY
As the representative of the organisation entering this structure in the Structural Steel Design Awards 2018, I declare that this steel-based structure has been fabricated by a UK or Irish steelwork contractor. It was completed during the calendar years 2016-2017. It has not been previously entered for this Awards Scheme.

Signed: .............................. Date: ..............................
On behalf of: ..............................

PERSON SUBMITTING THIS ENTRY

Name: ...........................................................................................
Tel: ............................................................................................... 
Email: ..........................................................................................

SUBMISSION MATERIAL
The submission material which should be hard copies, should include:
■ Completed entry form
■ Description of the outstanding features of the structure (ca. 1,000 words), addressing the key criteria listed on this form, with the relevant cost data if available
■ Architectural site plan
■ Not more than six unmounted drawings (eg. plans, sections, elevations, isometrics) illustrating the essential features of significance in relation to the use of steel
■ Six different unmounted colour photographs which should include both construction phase and finished images
■ Memory stick containing the images submitted as digital JPEG files at 300dpi A5 size minimum and an electronic copy of description text in Word (not pdf format)

Entry material should be posted to:
Gillian Mitchell MBE, BCSA, Unit 4 Hayfield Business Park, Field Lane, Auckley, Doncaster DN9 3FL to arrive by not later than 23rd Feb 2018

Sponsored by The British Constructional Steelwork Association Ltd and Trimble Solutions (UK) Ltd.
